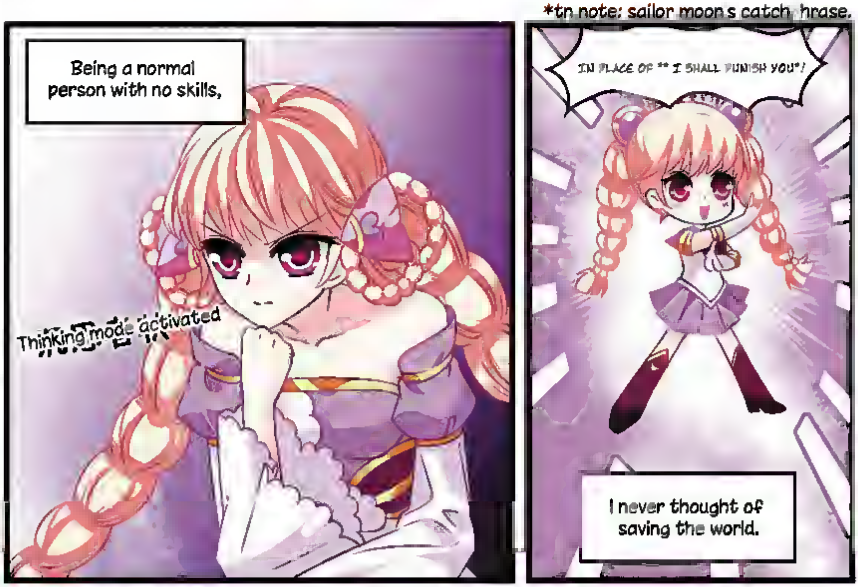
*tn note: sailor moon's catch phrase.



Being a normal person with no skills,
Thinking mode activated
IN PLACE OF ** I SHALL PUNISH YOU*!
I never thought of saving the world.

ts note: lmao the drill hair

All the money in this world is mine! Ohohoho!
I also never thought of monopolizing businesses, to call the wind and summon the rain.*
Your Majesty, you need to decide for me!
Furthermore, I never thought of being a queen or an imperial concubine.

tn: chinese proverb of stirring up trouble.

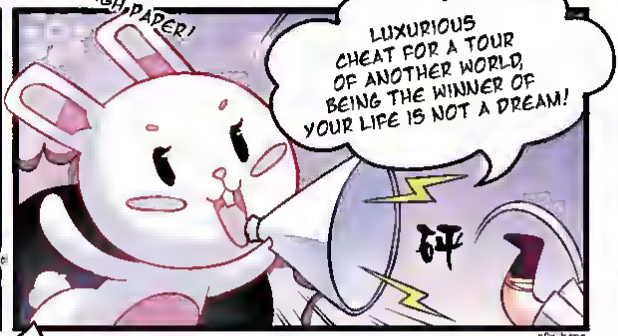
pf note: what does it mean to break through paper haha

Don't tell me that just because I played a male character even though I'm female, they are punishing me by transferring me to another world?
Is it true?
I don't believe it!



sfx: bang

Even though there is a prohibition in the Forbidden Deep Chamber, they still tell us to guard this place without sleeping a wink...
Exactly! I've had enough of receiving cold-eyes from Shi Mei because of this arduous and thankless assignment.
Even if I want to release Han Shi Xiong, this is the Master's order...
I don't understand, why would Han Shi Xiang save that useless blande girl,
Demon beast?!
She's a mere martal, her value can't even compare to a Level 1 demon beast.
Who knows?
Do you think Han Shi Xiong can survive?
Even if he made it through the nine-nine-eighty-one* whips, the Devouring Spirit Lock in the Forbidden Deep Chamber is not a joke.
It's hard to say, no matter how talented he is, with injuries upon injuries, it would be fraught with grim possibilities...

*In in Chinese culture they like to have it be. 9 times 9 equals 81 so they say 9-9-81.

He was severely injured when he returned from the Hundred Beast Valley, and he still need to 又一口 receive the punishment for failing his mission!
Enduring 81 lashes of Bone-crushing Soul-breaking Whips, and was locked away in the Forbidden Deep Chamber for seven days and seven nights, now he's on the brink of life and death! 如今
With injuries upon injuries, it would be troublesome with grim consequences... 吉少!
